FAIRTRADE FIGHTS POVERTY AND IMPROVES LIVES THROUGH TRADE

This is how ...

Fairtrade guarantees farmers and producers in marginalised societies in the developing world a fair and stable price for their produce, and helps tackle trade injustice caused by unfair tariffs and subsidies.

Fairtrade provides an additional premium, paid to producer cooperatives, to fund community projects such as training, school-building, sanitation and health care programmes.

Fairtrade encourages environmental awareness and sustainable methods of production.

Fairtrade requires producer organisations to offer safe working conditions and prohibits exploitative child labour.

What is a Fairtrade Town?

Five specific goals have to be met before Fairtrade status is granted by the Fairtrade Foundation. These include:-

- Local Council passes a Resolution of Support for the campaign .
- Getting Fairtrade products into a specified proportion of shops and cafés/restaurants.
- Encouraging local work places and community organisations to use Fairtrade products in their regular tea breaks and meetings.
- Attracting media support and coverage for the campaign.
- Work with local voluntary organizations.
